***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.
4. Group I, claim(s) 13-21, drawn to a catalytic composition.
5. Group II, claim(s) 22 and 23, drawn to a process of making a catalytic composition.
6. Group III, claim(s) 24-26, drawn to a method of using a catalytic composition.
7. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common technical feature among the groups is the catalytic composition as claimed by Claim 13. However, this composition of a polycondensate of silane and of metal oxide particles is not a special technical feature because it is anticipated by the prior art. See Jonschker et al. EPA 0 842 967 (Claims 1, 5, and 15; page 3, lines 8-10, 36-68; page 4, lines 1-36).
8. A telephone call was made to Ms. Seidman on 10 November 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.
9. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

10. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
